ICT Grade 6

Student name……………………………………..School ……………………………………..

Date of task competition ……………………….task implementation time : a period(2 session)

Task 1

35

Dear student you have previously studied computer networks , types of internet connection and you have learned that networks are group of devices or things connected together for common purpose

Match from column (A) to what suitable statement from column (B)

Column (A)	Column (B)
Wired networks	Connected without wiring
Switches	Device which connect LAN network to internet
Modem	Networks which use wires and cables which are plugged into ports
Wireless networks	I can send data to specific device through network

ICT Grade 6

Student name……………………………………..School ……………………………………..

Date of task competition ……………………..task implementation time : a period(2 session)

Task ٢

35

Dear student you have previously studied Technology and artificial intelligence (AI) and Evaluating cutting-edge technology

Read the following statements and words then write the suitable word for each statement

Augmented reality –virtual reality – artificial intelligence- cutting edge technology - assistive technology

……………………	It is concerned with creating systems that rely on information and its technologies so that can performs tasks in a similar way to human intelligence
……………………	Users wear headphones
……………………	The latest and most advanced version of a service or product
……………………	Improves students engagement and interaction and how long they have learned ,helps them remember difficult concepts and expands their learning opportunities
……………………	Helps people of determination such as screen magnification software

ICT Grade 6

Student name……………………………………..School ……………………………………..

Date of task competition ………………………task implementation time : a period(2 session)

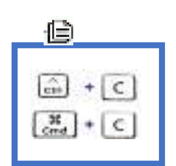

Task 3

35

Dear student you have previously studied Digital research skills and mobiles as a part of information and communication technology role in our life

Draw a circle around the image which suitable or each statement:-

1 – From the Useful digital editing tools which useful for editing word processing

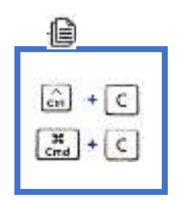

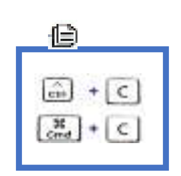

2-help people to search through internet according to the main words and statements

3- you can search for information in different arranged sources through

Student name……………………………………..School ……………………………………..

Date of task competition ……………………….task implementation time : a period(2 session)

Task 5

35

———————————————————————————————————

Dear student you have previously studied website design and and Html language

Match from column A what is suitable from column B

column A	column B
Emphasized text	Largest heading
Sub heading	Bold text
To create paragraph	<i>Emphasized text</i>
Bold text	———————————————.
The largest head	Subheading

Student name……………………………………..School ……………………………………..

Date of task competition ………………………task implementation time : a period(2 session)

Task 6

35

Dear student you have previously studied How to deal with electronic games

Match from column A what is suitable from column B

column A	column B
Playing too often can affect your sleep cycle. and prevent you from falling asleep	Security dangers
Large gaming communities are filled with cyber bullies Hackers can cause your information to be leaked	Psychological dangers
some games promote violence especially which contain violence scenes	Physical dangers

ICT Grade 6

Student name…………………………………….School …………………………………….

Date of task competition ……………………….task implement ion time : a period(2 session)

Task 7

35

Dear student you have previously studied Protecting ourselves

From digital theft and cyber security

Match from column A what is suitable from column B

column A	column B
requires interring more information not only password	Passwords
Protecting systems, networks and data from electronic hacking	Encryption
A type of malware that takes the form of a virus alert telling you to click on a link to get rid of this virus	cyber security
It protect your information so that only you can access it	Multifactor authentication (MFA)
It must contain random letters , numbers and symbols	Scare ware

ICT Grade 6

Student name……………………………………..School ……………………………………..

Date of task competition ……………………….task implement ion time : a period(2 session)

Task 8

35

Dear student you have previously studied copyrights ,Electronic financial trading and cloud storage files

Read the following statements and words then write the suitable word for each statement

Copyrights – Creative Commons – Egyptian knowledge bank – electronic financial trading – broker

1. **---------refers to work that has been granted permission to share by the creator**
2. **Work in data libraries such as-------- is already approved for use.**
3. **-------- is someone's invention, creation or idea, that is protected by law from being copied by someone else**
4. **-------- is a market where buyers and sellers deal in units of company stocks These stocks are called shares**
